

# Grout Colour Chart

These colour strips are intended for easy colour selection and meant to be as accurate a representation of the true Grout Colour as is possible but are printed reproductions. Job site conditions including fast drying, or rain, installation techniques including the amount of water used in mixing and the use of over wet sponges, tile characteristics and other factors beyond our control may affect the final colour.

**White**

**Pearl White**

**Ivory**

**Corn Silk**

**Almond**
