

Product Information

GROUT HAZE & LATEX FILM REMOVER

Description

Tile Star Grout Haze & Latex Film Remover is made especially for the removal and cleanup of those latex modified grouts that are proving to be so stubborn and time consuming. Easy to use, this product reduces the time needed for the final cleanup of a newly grouted installation. It will not harm new or old grout and is also effective for routine maintenance as it works without streaking. Highly recommended for commercial maintenance as well.

Grout Haze & Latex Film Remover is effective on glazed and unglazed ceramics, slate, terrazzo, quarry tile and porcelain. Do not use on marble or agglomerate tiles. It is suitable for floor and wall tile and contains no abrasives or harsh chemicals.

Directions

Allow fresh grout to cure for 10 hours before using.

NOTE: Wear rubber or plastic gloves when using this product.

To remove latex grout film: Apply freely at full strength. Allow to stand for a few minutes while foaming begins, then scrub thoroughly with a Scotch-Brite pad, rough toweling or burlap. Repeat as needed for stubborn areas. Rinse well with water and dry.

For heavy duty cleaning and removal of film from tile: Use two cups of remover per gallon of water.

For routine cleaning: Use one cup per gallon of water.

WARNING: Eye and Skin Irritant. Contains Citric Acid. Do not get in eyes, on skin or clothing. If stinging is felt, discontinue use. Do not take internally. **FIRST AID:** For eyes, flush immediately with plenty of water for at least 15 minutes. If irritation persists, get medical attention. For skin, wash thoroughly with soap and water. If irritation persists, see a doctor.
